FREAR PURSUES ROSENBLIEDT

Philip F. Frear has sued out an order to Morris Rosenbiedt to show cause why he has not complied with the decree of Judge Robinson adjudging that Frear should have specific performance of an agreement of sale of a lot at Punahou. He says respondent has declared to complainant his intention to execute him a deed that shall comply with the decree in form only and not in substance, and says respondent does not intend to furnish him with a warranty deed in fee-simple free of all incumbrances.

Complainant represents that respondent made a mortgage of the premises to the trustees of the estate of S. C. Allen, deceased, dated January 7, 1907, and alleges that respondent can at any time, upon requesting the owner and holder of the mortgage and payment of \$1000, obtain a partial release from the mortgage.

If, on the hearing of the order, it appears to the satisfaction of the court that the respondent is unable or refuses to comply with the decree, then that by the alleged contract defend-

petitioner further prays that the court will direct that the sum of \$1000 heretofore paid by complainant into court be applied by the clerk, so far as may be necessary, to the obtaining of a release from the incumbrance mentioned.

THOSE FAMOUS BROOD MARES

A demurrer has been filed by E. C. Peters for defendant in the suit of Lunal Co., Ltd., vs. Harry S. Landis. It states that the agreement in question contemplated the delivery of the brood mares to plaintiff at San Francisco, and that he took delivery of them there and accepted and paid for them. Further, the demurrer says it does not appear that the mares that arrived at Honolulu became a total loss to plaintiff, nor that they were useless for any and all purposes.

It appears from the complaint, the defendant contends, that the covenant that all risks of injury on voyage should be borne by him was without consideration, and it does not appear that by the alleged contract defend-

ant assumed the cost and expenses of shipment.

The complaint is represented as being uncertain and unintelligible and ambiguous because it cannot be ascertained therefrom whether the words "fitted and suitable for breeding purposes in the Territory of Hawaii" is a warranty of the kind of brood mares to be shipped different from their ability to foal elsewhere than in the Territory of Hawaii, or refers to quality other than simply breeding. Also because it does not appear how the animals delivered to H. Hackfeld & Co. were not brood mares, or in what respect they were not suitable for breeding purposes within the Territory of Hawaii, or how plaintiff incurred expense and resulting damage in the sum of \$2000 over and above the purchase price of the mares, or what was the agreed price if any of said mares.

THE THEATERS

Bijou Matinee Today.

The usual Saturday matinee will be held today at the Bijou. A strong program of vaudeville items will be submitted as usual, and the show should be an enjoyable one. The doors will open at two o'clock, and the performances will begin a half an hour later.

At the evening performance, of course, the Eldids will be the main attraction. Their thrilling acts on the bicycles have been pronounced to be far better than anything ever seen here in this line, and consequently they are packing the big theater each evening. For long stretches at a time, it is impossible to gain admission.

Madame Harrison is still in the bill, and there is a fine set of films.

On Monday evening the O'Hagans will make their first appearance in Honolulu. They come with excellent reputations, and they should prove thoroughly successful during their season in this city.

The Empire.

The Bell Trio are proving big drawing cards at the Empire. The setting of the sketch that they are putting on is good, and their singing is up to the usual high standard. Miss Lottie O'Malley is still in the program singing and dancing. There is an excellent collection of pictures to support the vaudeville items.

A DANGEROUS DISEASE

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. For sale by all dealers, Benson, Smith & Co., agents for Hawaii.

BUSINESS MEN WAKING UP

The business community is getting interested in the proposed regulations of the Board of Harbor Commissioners to govern the length of time freight may remain on government wharves before the commencement of loading a vessel, and after its discharge from a vessel; demurrage charges, etc. As a result of this interest a joint meeting of the members of the Chamber of Commerce and of the Merchants' Association has been called for three o'clock Monday afternoon at the rooms of the chamber in the Stangenwald building.

Fine Job Printing, Star Office

IN THE CIRCUIT—COURT, FIRST Circuit, Territory of Hawaii, in Probate—At Chambers, No. 4324, in the Matter of the Estate of William Brede, late of Honolulu, deceased.

On reading and filing the petition and accounts of Henry Waterhouse Trust Company, Ltd., Honolulu, City and County of Honolulu, Territory of Hawaii, wherein petitioner asks to be allowed \$862.69 and charged with \$2,578.72, and asks that the same be examined and approved, and that a final order be made of distribution of the remaining property to the persons thereto entitled and discharging petitioner and sureties from all further responsibility herein.

It is ordered that Monday, the 25th day of September, A. D. 1911, at ten o'clock a. m. before the Judge presiding at Chambers of said Court at his Court Room in the Judiciary Building, in Honolulu, County of Honolulu, be and the same hereby is appointed the time and place for hearing said Petition and Accounts, and that all persons interested may then and there appear and show cause, if any they have, why the same should not be granted, and may present evidence as to who are entitled to the said property.

Dated the 19th day of August, 1911.
By the Court,
(Seal) M. T. SIMONTON,
Clerk of the Circuit Court of the First Circuit.
CASTLE & WITHINGTON,
Attorneys for Petitioner.

Treasurer Ewa Plantation Co.,
Honolulu, August 19, 1911.

Morning Cable Report

(Continued from Page One.)

LONDON, August 19.—Not only this city, but Great Britain is crippled in transportation facilities by the great strike of railway employees, over half of whom are now asserted to have gone on strike at the commands of their leaders.

Traffic is demoralized from Glasgow to Plymouth and freight is tied up, while passenger service is intermittent and uncertain. Further complications are threatened by demands of the underground, or tube, railroad workers who may walk out at any hour. Already prices of food are soaring.

The trouble with the dock workers has been settled and the men will return to work today, thus relieving the situation in part and permitting of some supplies being brought in by water.

Stories of threatened famine are coming from other cities, and appeals are being made to the government for assistance.

LIVERPOOL, August 19.—All the steamers in this port are now tied up by the strike and lack of workmen to move cargoes. The troops are patrolling the city and there has been no further violence of any consequence.

LONDON, August 19.—E. H. Sothorn, the well known American actor, and Julia Marlowe, the famous actress, who have supported each other in numerous productions in both England and America, were married here yesterday.

WASHINGTON, August 19.—Speaker Champ Clark was given an ovation yesterday by the Democratic members of the house when he asserted that President Taft's veto of the wool schedule would be the campaign issue in 1912.

The senate yesterday completed all of the work before it for this session and Congress will probably adjourn on Tuesday.

JOLIET, Illinois, August 19.—An explosion in the steel works in this city yesterday killed four workmen and injured fourteen others.

The origin of the explosion is a mystery. The damage caused is considerable, but unestimated.

CHICAGO, August 19.—At the aviation field here yesterday another world's record was broken by a wonderful altitude flight made by Oscar Bradley, who rose to the tremendous height of 11,726 feet in his biplane.

ROME, August 19.—The Pope is convalescing, his health improving rapidly.

SWANVILLE, Pennsylvania, Aug. 19.—Harry Atwood, the aviator, who is flying from St. Louis to New York, reached here last evening after a sustained flight of eighty-four miles. He will start for New York this morning.
